

Frontend Design Overview

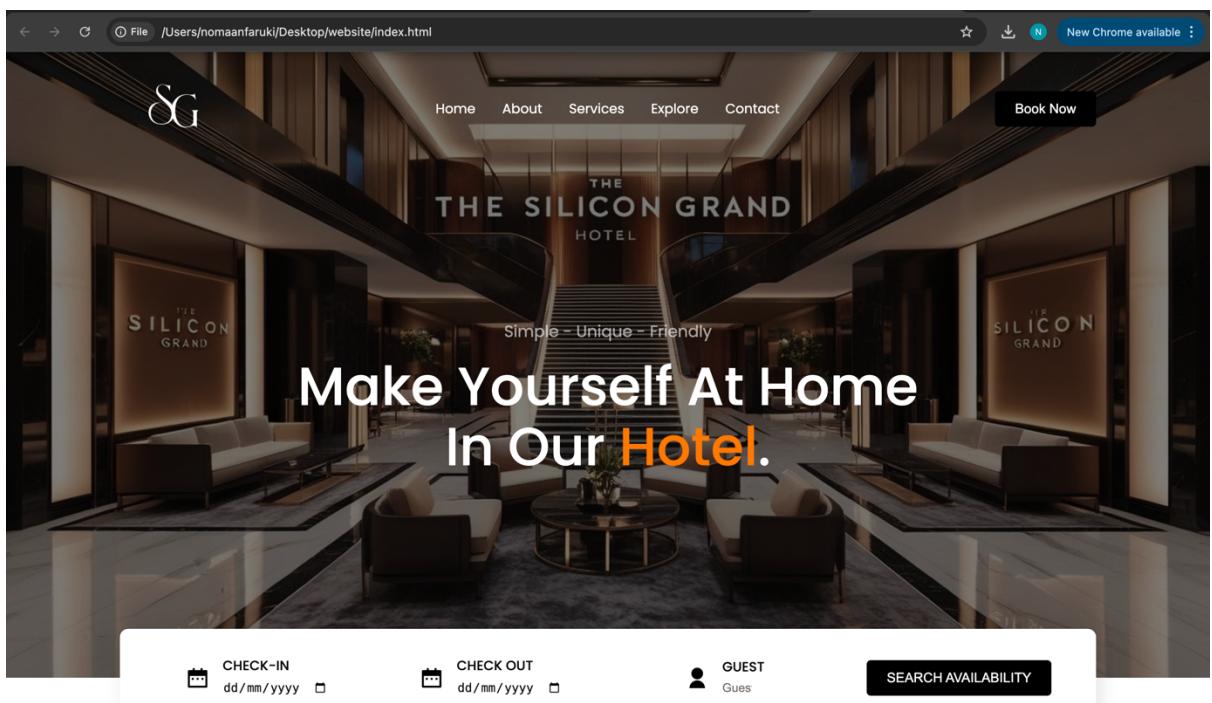

Introduction:

The frontend of the *Silicon Grand Hotel Booking System* is crafted to reflect luxury, simplicity, and ease of use. It guides users through a smooth journey—from discovering hotel amenities to booking their stay.

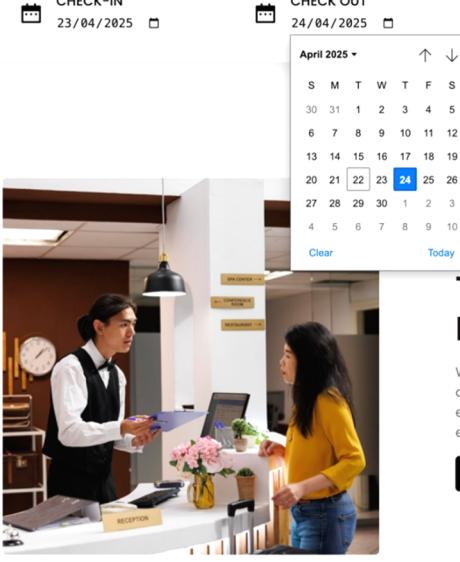

Objectives:

- To provide a user-friendly interface for online hotel reservations.
- To automate booking management and reduce manual errors.
- To maintain an efficient database for storing booking and customer details.

💡 Landing Page (index.html):

- **Main navigation bar with links:** *Home, About, Services, Explore, Contact*
- **Booking Panel:**
 - Inputs for check-in/out dates and guest details
 - Real-time availability check feature
